Getting To Know Phuket

Like An Open Book

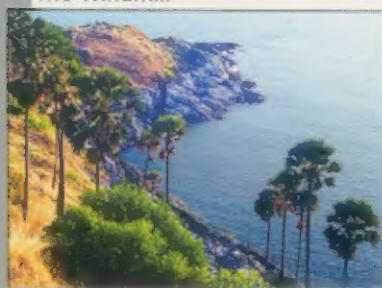

The Kata Viewpoint

The Windmill

Laem Phromthep

Karon Beach

Kata Beach

Nai Harn Beach

4. Here is a highlight of our tour, a 15 min. elephant ride that will make your day! This could be your first real safari ride. Thai elephants, our most love animal had been with us throughout our 700 years history. Reward them with a basket of bananas after the ride and tip the mahoots too. It will make their day!

3. Fun and laughters are in store for you at our Monkey Show. Plucking coconuts is not the only skill these "Ling Kang" have. They can do many lovable tricks & treats to entertain you. Participate in the show yourself or take photos with them to bring fond memories home.

"The Monkey Show is real shik, lah!"  
Ally from Singapore

2. See how rubber is tapped and converted into solid sheets

1. Our Scenic Drive will show you what makes Phuket famous - its beautiful beaches and Andaman coastal areas. We'll bring you to four beaches : Karon, Kata, Nai Ham & Rawai and three viewpoints : Kata Viewpoint, the Windmill and Laem Phromthep, the best spot to see sunset in Thailand.

Sina Martino Australia

"I was the only tourist, at first I thought Oh no... it turned out to be the best. I felt like a Thai Princess as Guide Sammy always opened the door for me.... It was gorgeous."

"Cozy, yet exciting, it's been my best tour in Thailand so far. The best thing is you get to do many different things in a relatively short space of one day."  
Jonas, England

5. Now relax in cool comfort and enjoy a variety of drinks ranging from tea, coffee, softdrinks, beer, wine and even liquor! Drink to your heart's content. You have done very well up to this point. Rendezvous for tourists joining us for C3 Carefree Afternoon Tour, Welcome!

**6. See silk worms and the weaving process for Thai Silk made world famous by Jim Thomson. Why bother to go up north of Thailand when you can see the widest range of handmade handicrafts right here. Good place for souvenir hunting for people at home.**

**7. You must be hungry by now! Feast yourself on delicious local style Thai food as well as hot and spicy dishes (for those who like it). You will also enjoy the view of Ko Si-Rae. This is one hilltop location very few tourists have the opportunity to visit. So, it's a little discovery you have made on our tour.**

**8. Visit old part of Phuket Town. See how some buildings had set trend for modern architecture in Thailand 100 years ago. Two out of 4 National Historical Buildings are enroute on our tour. Also, see some of the Sino-Portuguese houses that give character to the town.**

**9. While in town, visit the most modern cashew nut factory. See how the nuts are processed and packaged. Taste 12 flavours and discover the most delicious one to your taste buds.**

**10. Now we come to another highlight of the tour. The newest attraction in Phuket. We'll call it Chalong Bay Lookout. It looks like a sentinel perching on top of the Khao Khad hills. This is where the word 'breathtaking' takes on a double meaning after a 136-steps climbing to the top and see the magnificent panorama of Chalong Bay, Phuket Town, Phuket Bay, Phang-nga Bay and many islands. A good spot to rival Laem Phromthep in watching the sunset.**

**11. Time to reward yourself with afternoon tea and snacks. Hot & cold drinks are available. Try fresh coconut drink or fruit sorbets of your choice. Select French toasts or fresh tropical fruits. Relax and view Chalong Pier nearby.**

**12. Visit newest factory to see the latest development in this art form which takes on local flavour. A piece of souvenir may be in order to please someone at home.**

**Our Philosophy on City Tour**  
We borrowed NASA's "Safe, Sober & Simple" concept. Tourists are in search for happy feelings. These are articulated by what they see and experience while touring. Time is the essence of travel. We aim for the widest range of activities in a short time and the least expense. A tour for the discerning tourists.
